Meet the Owner

Professional Tutor & Seminar Leader

Jim Rhoads is a full time professional speaker and expert tutor helping students, parents and teachers with cutting edge strategies in the schools. A retired educator of 30 years with experience as a Principal, Director of Curriculum, Supervisor, and Teacher, Jim is currently instructing for the Richard Stockton College assisting new teachers in the areas of Instructional Strategies, Discipline, Effective Lesson Planning, and Brain Based Techniques.

As a presenter, he combines humor and academic expertise to inspire Administrators, Teachers and Parents to incorporate new ideas to help their children learn. If you are looking for a Seminar Leader or need a Professional Tutor to help your child or yourself get that needed academic edge, call Jim today for a free consultation.

What Success Strategies Can Do for You

Whether you are searching for a Professional Tutor, Seminar Leader, or an assembly program, *Success Strategies for Students* can help. Jim's workshops and seminars provide hands-on training for both parents and teachers to help students succeed in learning. Seminars focus on communication and learning strategies that can be used immediately to promote a positive learning environment at home and school. Assembly programs are based on character education themes and provide skills to children that enhance self esteem and personal strength.

Tutoring with a Twist

Success Strategies for Students does not use a canned curriculum; but rather establishes the teen's or adult's learning and behavioral style so that strategies can be developed specifically for them. Because students are working in their preferred style, optimal academic success is more likely to be realized.

There are essentially three learning styles; Auditory, Visual and Kinesthetic. By knowing the student's preferred learning style, specific strategies are developed that enhance learning experiences; which ultimately lead to success in school. Consequently, the child's, teen's or adult's self-esteem improves and their confidence soars!

Need an Expert Tutor or Child Advocate?

Jim specializes in students who are experiencing learning problems in all levels of school. His "Brain in Mind Approach" tutoring personalizes the instructional process. Jim's calm, professional manner can help even the most difficult child, teen or adult break through the learning barrier. If necessary, Jim will work with your child's school; attending meetings and or conferences with teachers and/or the Child Study Team to get the results your child needs. To learn more about how Jim can personalize a program for you, your child or teen, simply call or write Jim at: -
